2021 Maryland Cemetery Citings

Introduction

Cemeteries can be valuable resources for genealogists and historians. Sometimes cemeteries can become lost and difficult to find; this may be due to the following: Cemetery name change(s), local landmark removal, streets being renamed, moved, or even removed. There are even cases of towns changing their name or just disappearing altogether.

Cemetery Citings' goal is to provide you the information necessary to find the cemetery. The Cemetery Citings list is arranged by county or independent city; the individual cemeteries are listed by name in alphabetical order. When the location of a cemetery has a physical address, it will be listed. For older cemeteries, there may not be a physical street address; in those listings, we will note an approximate street address. The purpose of including GPS coordinates is to assist with locating the cemetery more accurately. The GPS coordinates will get you to the center of the cemetery, whether it has a physical or an approximate address.

This guide does not list the names of those buried in the cemeteries. Instead, we list the following cemetery information: Name, Alternate names, location by way of an address, in some cases an approximate address, and GPS coordinates. If available, phone number, affiliations, and the year the cemetery was established.

In Cemetery Citings, we list only the cemeteries that could be verified. This verification information was generously provided to us by CemeteryRegistry.US. There are many more cemeteries than those listed here. Hence, CemeteryRegistry.US's purpose of verifying cemeteries and their locations. Without the hard work by CemeteryRegistry.US, the history preserved in our cemeteries is lost to time.

If you wish to contribute any corrections or additions to [CemeteryRegistry.US](https://www.cemeteryregistry.us), please visit shareacemetery.com

The proceeds from Cemetery Citings will go toward the continued work of CemeteryRegistry.US.

Cemetery Rights

What are Public and Private Cemeteries

A public cemetery is used by the general community, a neighborhood, or a church.

A private cemetery is used only by a family or a small portion of the community. However, it is the mode of use rather than ownership that determines whether a cemetery is public or private. So, public use rather than ownership determines if a cemetery is public. For example, a privately-owned or privately maintained cemetery may be deemed a public cemetery if it is open to the public's use for burials under reasonable regulations.

Family burying grounds are lots that are not sold to the public and restricted to interments for a group of persons related to each other by blood or marriage.

A cemetery includes the actual gravesites and surrounding areas such as avenues, walks, and grounds.

Cemetery Laws

Cemeteries are not governed by laws that apply to real property or corporations due to their inherently different nature. Cemeteries are generally regulated on the State level.

Maryland Cemetery Access Laws

A. Applicable Laws in the Annotated Code of Maryland and the Maryland Rules

7. To gain access to a cemetery located on private property:

To facilitate access to a cemetery, Section 14-121 of the Real Property Article provides that any person in interest (as defined in the Section) may request the owner of a burial site or of the land encompassing a burial site, that has been documented or recognized as a burial site by the public or any person in interest, to grant reasonable access to the burial site for the purpose of restoring, maintaining, or viewing the burial site. An access agreement form can be executed similar to the one that is printed in the text of the law. The law provides that except for willful or malicious acts, the owner of a burial site or of the land encompassing a burial site is not liable for damages in a civil action to a person who enters on the land for injury to person or property.
