2021 Virginia Cemetery Citings

Introduction

Cemeteries can be valuable resources for genealogists and historians. Sometimes cemeteries can become lost and difficult to find; this may be due to the following: Cemetery name change(s), local landmark removal, streets being renamed, moved, or even removed. There are even cases of towns changing their name or just disappearing altogether.

Cemetery Citings' goal is to provide you the information necessary to find the cemetery. The Cemetery Citings list is arranged by county or independent city; the individual cemeteries are listed by name in alphabetical order. When the location of a cemetery has a physical address, it will be listed. For older cemeteries, there may not be a physical street address; in those listings, we will note an approximate street address. The purpose of including GPS coordinates is to assist with locating the cemetery more accurately. The GPS coordinates will get you to the center of the cemetery, whether it has a physical or an approximate address.

This guide does not list the names of those buried in the cemeteries. Instead, we list the following cemetery information: Name, Alternate names, location by way of an address, in some cases an approximate address, and GPS coordinates. If available, phone number, affiliations, and the year the cemetery was established.

In Cemetery Citings, we list only the cemeteries that could be verified. This verification information was generously provided to us by CemeteryRegistry.US. There are many more cemeteries than those listed here. Hence, CemeteryRegistry.US's purpose of verifying cemeteries and their locations. Without the hard work by CemeteryRegistry.US, the history preserved in our cemeteries is lost to time.

If you wish to contribute any corrections or additions to CemeteryRegistry.US, please visit shareacemetery.com

The proceeds from Cemetery Citings will go toward the continued work of CemeteryRegistry.US.

Cemetery Rights

What are Public and Private Cemeteries

A public cemetery is used by the general community, a neighborhood, or a church.

A private cemetery is used only by a family or a small portion of the community. However, it is the mode of use rather than ownership that determines whether a cemetery is public or private. So, public use rather than ownership determines if a cemetery is public. For example, a privately-owned or privately maintained cemetery may be deemed a public cemetery if it is open to the public's use for burials under reasonable regulations.

Family burying grounds are lots that are not sold to the public and restricted to interments for a group of persons related to each other by blood or marriage.

A cemetery includes the actual gravesites and surrounding areas such as avenues, walks, and grounds.

Cemetery Laws

Cemeteries are not governed by laws that apply to real property or corporations due to their inherently different nature. Cemeteries are generally regulated on the State level.

Virginia Cemetery Access Laws

§ 57-27.1. Access to cemeteries located on private property; cause of action for injunctive relief; applicability.

A. Owners of private property on which a cemetery or graves are located shall have a duty to allow ingress and egress to the cemetery or graves by (i) family members and descendants of deceased persons buried there; (ii) any cemetery plot owner; and (iii) any person engaging in genealogy research, who has given reasonable notice to the owner of record or to the occupant of the property or both. No landowner shall erect a wall, fence or other structure or device that prevents ingress and egress to the cemetery or grave, unless the wall, fence or other structure or device has a gate or other means by which ingress and egress can be accomplished by persons specified in this subsection. The landowner may designate the frequency of access, hours and duration of the access and the access route if no traditional access route is obviously visible by a view of the property. The landowner, in the absence of gross negligence or willful misconduct, shall be immune from liability in any civil suit, claim, action, or cause of action arising out of the access granted pursuant to this section.

B. The right of ingress and egress granted to persons specified in subsection A shall be reasonable and limited to the purposes of visiting graves, maintaining the gravesite or cemetery, or conducting genealogy research. The right of ingress and egress shall not be construed to provide a right to operate motor vehicles on the property for the purpose of accessing a cemetery or gravesite unless there is a road or adequate right-of-way that permits access by a motor vehicle and the owner has given written permission to use the road or right-of-way of necessity.

C. Any person entering onto private property to access a gravesite or cemetery shall be responsible for conducting himself in a manner that does not damage the private lands, the cemetery or gravesites and shall be liable to the owner of the property for any damage caused as a result of his access.

2021 Virginia Cemetery Citings

D. Any person denied reasonable access under the provisions of this section may bring an action in the circuit court where the property is located to enjoin the owner of the property from denying the person reasonable ingress and egress to the cemetery or gravesite. In granting such relief, the court may (i) set the frequency of access, hours and duration of the access and (ii) award reasonable attorney fees and costs to the person denied such access.

E. The provisions of this section shall not apply to any deed or other written instrument that creates or reserves a cemetery or gravesite on private property.
